

A Place to Call HOME is a three-year campaign for Trinity Church of Bozeman. After prayerful planning, we have decided that the time is right to begin to build a permanent home for our church.

The Problem: We have no place to call home—no physical presence in our community, no office space for staff, no conference or counseling rooms, and no place for groups to meet for daily body-life events.

The Project: This is Phase I, which includes building a Ministry Center with office space, a conference room, counseling rooms, and flexible meeting spaces for groups. Phase II includes building a sanctuary and will happen when Phase I is complete and we have the necessary funds.

Programs: The Ministry Center will provide a permanent place for our programs to meet, eliminating the need to rent mid-week space from other organizations and greatly minimizing our dependence upon their schedules and availability.

Presence: God loves our hearts and minds along with our bodies and the earth. Having a physical presence communicates to our neighbors our love for and investment in our community.

Permanence: Buildings signify stability and permanence. We plan to be in the community long-term and are committed to our Bozeman neighbors. By building on these fully-paid-for ten acres of land, it signifies our dedication to serving our community for generations to come.

Phase 1 | Ministry Center

As we look to God and to his extravagant grace, let's dream of how this project will touch Bozeman for generations to come!

Our Campaign Goal

Cost to Build Ministry Center: **\$4,000,000**

Money in Savings: **\$1,000,000***

Goal for **A Place to Call HOME**: **\$3,000,000**

**Due to careful planning and saving,
we already have \$1M set aside for this project.*

Raising our goal of \$3M for this campaign allows us
to build the Ministry Center with **no long-term debt.**

Our hope is that every person at Trinity Church will come together and fully engage in the **"A Place to Call HOME"** campaign. We have a big vision and a big goal for which we will need God's blessing and help every step of the way. We are excited about what God has in store for all of us in this process and are confident that now is the right time to embark on it. This critical project will shape the mission and ministry of our church for decades to come.
